PCI NEWS & PROGRAM UPDATES

New Resource: Mapping of PCI DSS to the NIST Cybersecurity Framework

The PCI Security Standards Council (PCI SSC) has released new resources that show how the PCI Data Security Standard (PCI DSS) maps to the NIST Cybersecurity Framework. PCI DSS and the NIST Cybersecurity Framework share the common goal of securing data. The Mapping of PCI DSS to the NIST Cybersecurity Framework provides a resource for stakeholders to use in understanding how to align security efforts to meet objectives in both PCI DSS and the NIST Cybersecurity Framework.

For details about the Mapping of PCI DSS to the NIST Cybersecurity Framework please visit the [document library](#).

Check out our [At A Glance: Mapping PCI DSS to the NIST Cybersecurity Framework](#)

Upcoming RFC: PCI Contactless Payments on COTS Standard

With a growing number of merchants now using smartphones and other commercial off-the-shelf (COTS) devices, PCI SSC is expanding its support for mobile payment acceptance to develop new standards that leverage security techniques to provide proactive controls for managing threats and protecting data.

The PCI Contactless Payments on COTS (CPoC) Standard provides security requirements for solutions that enable contactless, or “tap and go”, transactions on merchant COTS devices.

The CPoC Standard includes:

- Specific criteria for solution providers on how to protect payment data within their solutions;
- Test requirements for PCI-recognized Laboratories to assess solutions for validation and listing on the PCI SSC website through the supporting CPoC Program.

The CPoC Standard is being developed with input from payment card industry stakeholders via the RFC process. This includes a dedicated RFC with the Mobile Task Force that took place in April 2019 and an RFC with Participating Organizations, Qualified Security Assessors and PCI-recognized Laboratories, scheduled to open on 22 July.

The upcoming RFC will be available through the [PCI SSC portal](#) with instructions on how to access the document and submit feedback, including a Non-Disclosure Agreement (NDA). Participating Organizations will also receive instructions via email.

Per the RFC process, all feedback will be reviewed and considered in development of the final CPoC Standard, which is planned for publication by the end of 2019. At that time, a feedback summary document will be available in the [PCI SSC portal](#) for viewing by RFC participants. The document will include the comments received, the names of the organizations that submitted them, and how PCI SSC is actioning those comments.

Please review the [RFC Process Guide](#) for more information.

PARTICIPATION OPPORTUNITIES

Make Plans to Attend a 2019 PCI SSC Event

Bring a colleague and experience all that the [Community Meetings](#) have to offer. Hear from payment card industry experts, meet with staff from the Council, enroll in [instructor-led PCI training classes](#) and take advantage of [sponsorship opportunities](#) while at the event.

Start making plans for your team to attend a PCI SSC event this year:

- **15 August:** Latin America Forum - [Register here](#)
- **17 - 19 September:** North America Community Meeting - [Register here](#)
- **22 - 24 October:** Europe Community Meeting - [Register here](#)
- **20 - 21 November:** Asia-Pacific Community Meeting - [Register here](#)

TRAINING

Next Chance to Become an ISA is in Edinburgh

Become an [Internal Security Assessor \(ISA\)](#) in just two days in Edinburgh on **31 July - 1 August**.

ISA training will help organizations:

- Improve understanding of PCI DSS and how it can help protect your customer payment data and business;
- Gain expertise in assessing your organization's adherence to PCI DSS;
- Facilitate interactions with a Qualified Security Assessor (QSA).

Don't wait to register, seats are filling quickly!

Participating Organizations are eligible to receive a discounted rate of \$1,800 per registrant on ISA training.

Become a PCIP and Attend a Community Meeting

We have just two instructor-led [Payment Card Industry Professional \(PCIP\)](#) training opportunities remaining in 2019. You will receive an individual qualification in payment security and leave with the tools to support a secure payment environment.

All attendees of instructor-led PCIP training will receive a complimentary* admission to the [PCI SSC Community Meeting](#) of your choice, a value of \$1,295!

Date	Location
16 September	Vancouver, CA - Stay for the Community Meeting
21 October	Dublin, IE - Stay for the Community Meeting

*Hotel and transportation are not included.
